Economics for the Average Student

AJ Hawkins, Lucas Carlsen, Daniel Luongo, Jermaine Wright Jr

College Students vary in age, but the most common age range is early twenties. With that in mind, these students are likely going to be moving out of their parent's house, and living paycheck to paycheck.

With the varying lifestyles of students, saving money is an important aspect of every students life. Keeping in mind all of these ways money is spent, it is important to look for ways of saving it. There are many tools to help save money one of which being Honey. It is a Chrome plugin that helps find any deals on Amazon. Another tool is Invisible Hand which helps find the cheapest website with the product being looked at.
